DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest the claimed invention.

2. Specifically, no teaching or obvious suggestion was found of the limitation " wherein an accelerating voltage of the electron gun is varied to shift the detected energy of electrons and signals supplied to the lenses and deflection means of the imaging optical system are corrected for focus and position using amounts of correction each obtained by multiplying an energy shift value corresponding to a variation in the accelerating voltage by a corrective coefficient" in combination with the recited limitation in claims 1 and 7.

3. Claims 2-6 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
